

# Elevator Pitch

Hello, my name is Drake Smelser and I'm currently the Optical Supervisor and Social Innovation Lead at Warby Parker St. Louis. I have many interests including: music, the outdoors, woodwork, social work, science and business. My biggest passion however is my family. My wife, daughter, and I are eager for me to start a career in tech as it allows me to work with all of my interests and more. For my SPA I decided to combine everything I love into a moneyless marketplace for exchanging hobbies!

HobbiTat is profile-based app that allows users to create profiles that showcase their hobbies with images and links to relevant work. Once a profile is established, users can view other members in the area and connect and exchange hobbies within their community!
